Date: 2nd July 2012

To: AMIGOSOLIDARIOS, MUKWANO-LAGUN AND ALL FRIENDS OF NEFAHA.

Dear sir/madam,

RE: ACKNOWLEDGEMENT

We take this opportunity to greet you, we are fine and very happy NEFAHA is growing. We thank you for the great work you are doing for NEFAHA may God award you abundantly and bless your work.

We acknowledge the amount of money you donate to us for the construction of NEFAHA-IBAI building, NEFAHA Pre-school and for the development of the Education of Orphans and Vulnerable children as a start of a good way for a better future and healthy families.

Supporting these children NEFAHA realized that all children, women and youth were facing discrimination, hence disadvantageous and victims of wars, famine, poverty, HIV/AIDS and natural calamities due to their gender status and age. It was often impossible for them to access education, employment or participate in the meaningful social, economic development activities which make them to be the poorest of the poor persons yet they have a right to lead a resourceful and productive life.

Therefore NEFAHA as an Organization created by women to provide equal opportunities for girls and boys that work for girls to access the New pre-school for children is committed to fight against Child abuse, discrimination, oppression, injustice, exploitation and marginalization, poor shelter, HIV/AIDS, abject poverty, malnutrition, high infant mortality rate, isolation, school drop out, early pregnancies / marriages and confinement based on culture, tradition attitudes.

At the moment we are constructing the NEFAHA-IBAI Community Hall and office Block where we will be running our projects under Health and school departments. We thank every one especially those who stand in supporting the vulnerable children of Uganda through NEFAHA. Thank you very much, we request you to continue working together.

Yours faithfully,

NAMASIRIKE AIDAH (MRS)

DIRECTOR NEFAHA
